

AUDREY, ANIMAL HEALTH TECHNICIAN

She obtained her diploma in animal health at the Cégep de St-Félicien in 2017. Being native of Abitibi-Témiscamingue, she has moved to Ontario, then it is here in the townships that she has found happiness. Since March 2019, the Mountainview team has been enriched by her personality and knowledge.

Passionate about behavior and the well-being of our four-legged friends (including horses), Audrey knows how to share her experience for the best of each.

Amongst her 4-legged family, there is Andy (nicknamed Chaton), her circus cat of many tricks... We will drop the idea of making a list of other members of her family, it would be too long! ha ha ha
