

## **CHERYL, ANIMAL HEALTH TECHNICIAN**

With a modus vivendi as "To the best of by best", she graduated from Vanier College, Montreal, as an Animal Health Technician in 2005.

No internship, no case load, no situation was too difficult. Cheryl worked for a while in a laboratory in town before joining our team. We are fortunate to work with Cheryl occasionally as she is dedicated to her family for the moment.

Cheryl loves dogs of big breeds such as BullMastiff, Rottweiler, Boxer, etc.
